SUCCESS STORY

Van Horn Automotive Group

Van Horn Automotive Group, an employee-owned dealership headquartered in Plymouth, Wisconsin, made a commitment two years ago to strive for consistent appraisals across all of their rooftops. They knew they needed to **standardize their vehicle acquisition process** in order to feed inventory to the group's 16 stores.

In 2019, they saw an opportunity to create a process that would provide them quality leads while increasing their profits and efficiencies across the group. Van Horn Automotive Group, a Kelley Blue Book® Instant Cash Offer customer since 2017, realized they had the potential of **generating even more leads and inventory opportunities by adding Trade-In Advisor** to their process.

Before Kelley Blue Book® Trade-In Advisor

To show their customers they could provide vehicle valuations and a place to sell their car, Van Horn had “sell your car” and “value your trade” buttons on their website. However, the buttons took the user to a different web page and away from the site. Not only that, the process to value a vehicle was so involved that people abandoned it. Van Horn needed a way to keep customers on their website. After seeing Trade-In Advisor in action, **they knew this was the solution to keep their customers engaged on their website.**

The Power of Kelley Blue Book® Instant Cash Offer + Kelley Blue Book® Trade-In Advisor

With Kelley Blue Book® Instant Cash Offer and Kelley Blue Book® Trade-In Advisor, Van Horn can better evaluate every trade – and they do! With the two solutions, Van Horn can transfer to the Kelley Blue Book® Instant Cash Offer process from Kelley Blue Book® Trade-In Advisor. They always ask their customers, “Would you like to get a Kelley Blue Book® Instant Cash Offer?” That way, Van Horn can provide a guaranteed offer to customers who are ready to take the next step in selling or trading in their car.

Instant Cash Offer is a much more involved process. When people are committed to the idea of selling or trading in their car, they are willing to take the time to fill out the precise information.

- Ryan Thiel, Marketing Director, Van Horn Automotive Group

The dealership enjoys using Kelley Blue Book® Trade-In Advisor because it's user-friendly for their team and their customers. To make the most of every inventory opportunity, five different departments use Kelley Blue Book® Instant Cash Offer at Van Horn, including their:
